PINK BUTTONS ZINNIA

3165H

RED BUTTONS ZINNIA

3166H

ZINNIA

Pink Buttons

All-America award for 1964. The feature that makes this variety unique is the plant itself. Just 1 foot tall, it is distinctly more compact than any other type of zinnia except Thumbelina, and about half the height of Lilliput.

AWARD

for 1964

This 12 inch plant has been lacking in zinnias, and is exactly what is needed in many situations.

The double flowers measure 1 1/2 inches across, and are of a delightful shade of salmon-pink.

ZINNIA

Red Buttons

Red Buttons is the counterpart of Pink Buttons, with the same compact plants and the same 12 inch height, but with bright scarlet-red flowers.

These two varieties are the first of a full series of Button zinnias.

Now gardeners can plant a border of zinnias with Thumbelina in the front row at 6 inch height, Red and Pink Buttons in the second row at 1 foot, and Lilliput in the third rank at 18 to 24 inches.

AMERICAN MARIGOLD F₁ Hybrids

DOUBLOON

Huge, fluffy blooms of light yellow, held well above the foliage and every one of them so double and crowded with petals that they look just as round and full from the bottom as the top. Plants grow about 3 feet tall and produce an incredible number of flowers.

SOVEREIGN

Similar to Doubloon in height, size of bloom and maturity, this excellent F₁ hybrid has flowers of pure gold. The vigor and uniformity are phenomenal.

DOUBLE EAGLE

The third of the Gold Coin series, Double Eagle has the same strongly double bloom characteristic as the other two, and the same capacity to produce masses of giant flowers. The flower color is a pleasing light orange.

PETUNIA

F₁ Hybrid Grandiflora Gay Lustre

This F₁ Lustre adds an attractive rose and white bicolor to the group. Greater proportions of rose appear in cool weather, and greater areas of white in warm weather. This seasonal fluctuation adds interest to the variety through the steady progression of changing color combinations.

DOUBLOON F₁ MARIGOLD

3169H

GAY LUSTRE F₁ PETUNIA

3172H

Thumbelina

Thumbelina Zinnia is absolutely unique, and it is the plant that makes it so.

The distinct habit of growth is apparent from the start. You'll notice that the true leaves unfold with very short internodes between them, and it is startling to see a bud forming at the top when the plant is only 3 inches high.

This crown flower marks the end of the upward growth, and immediately the plant begins to produce numerous, closely placed branches to form a tight globe shape. Each of these branches terminates in a bud, and this induces additional branching so that the plant is continually displaying fresh flowers at the branch tips while at the same time new branches and new buds are forming to take their turn.

3167H

Thumbelina has the most attractive plants you've ever seen in zinnias. They grow in a tight globe shape only 6 inches high and continue to hold that compact form to the very end of the season. No other zinnia even remotely approaches this performance.

The growth of the plant is a matter of uniform expansion, always symmetrical, always extremely compact, and always in bloom. The ultimate height and width are about 6 inches, so the planting rate should be much closer than other zinnias. We have found that rows 6 inches apart, with the plants spaced 2 or 3 inches apart in the row make the ideal border or edging. Since the plants do remain so small there is hardly any situation where two rows cannot be planted side by side, and this increases the beauty and display of color.

Thumbelina makes an ideal low edging plant with lots of color but no encroachment on the walk. Here Thumbelina plants were left unthinned, just as they came up, yet they bloom easily in spite of crowding. Rows are 6 inches apart.

3168G

3153G

Here is Thumbelina coming into bloom in peat pots. These delightful little plants reach this stage quickly, show plenty of buds, and have a sales appeal in nursery display that is unique in zinnias. Note the ruler at the extreme right.

These are 2 in. pots. Even in such small containers Thumbelina demonstrates its ability to bloom freely and hold its compact plant habit.

Such a bright display of color in a seed flat demands attention, assures interest, and excites the gardener's desire to plant Thumbelina, the new Gold Medal Zinnia.

3156G

Thumbelina is already a world-famous name, coming from the Hans Christian Andersen tale of a little girl born in the heart of a flower. The name also indicates the origin of the new zinnia variety, for Thumbelina is in fact a diminutive form of the well-known Tom Thumb Zinnia. A sketch of this charming little character appears on the opposite page and in the engraving directly above, among the potted plants.

3152H

Thumbelina

Zinnia, actual size!

GOLD MEDAL

3157H

The Gold Medal

Gold Medals are rare in the All-America Selections. Since 1939 only two annual flowers have attained this highest award. They are Fire Chief, the first red petunia (1950), and now Thumbelina, the first truly dwarf zinnia (1963).

The All-America trials receive the close attention of qualified judges in nearly 30 locations widely scattered over the United States and Canada. Entries are made under code number only, and their source is not revealed until after voting is completed.

This impartial, long established competition has been the proving ground for many of the finest flowers in the modern gardening world.

🏠 Thumbelina thrives on close crowding. Plants spaced only 2 or 3 inches apart with rows 6 inches apart make a solid ribbon of bright color very rapidly, and because of their genetic stability for dwarfness they will not grow tall and spindly as other zinnias do under such circumstances.

Lithographic separations or letterpress electros are available of any of the color pictures in this catalog.

Four to six inch spacing creates another effect. 🏠 Here the plants take a little longer to give that solid color band illustrated above, but instead display their densely compact, ball-shaped plant habit in separate, colorful globes.

3160H

The ideal edging and border flower

What makes a good edging flower?

Thumbelina does, for it fulfills all the requirements for this job. An edging plant must be small, to avoid encroachment on walks, lawns, or drives. Moreover, it must stay small without pruning because pruning requires constant work and cuts off the very parts of the plant which produce the blooms. Thumbelina stays the right size without pruning.

An edging or border plant must bloom for a long time, since what you want is color, and plenty of it. It's a rare flower that blooms all summer, but Thumbelina does just that. Seed sown after the weather has become warm produces blooming plants in 30 days, and from that time onward to fall there is a steady, uninterrupted progression of bloom.

The ideal flower must be easy to grow, resistant to disease, tolerant of heat or rain, and at home in many different kinds of soils. Thumbelina meets all these requirements and fully earns its All-America gold medal award.

- ★ Heat proof
- ★ Compact
- ★ Extreme dwarf

- ★ Continuous bloom
- ★ Disease resistant
- ★ Absolutely unique

☞ Thumbelina plant size is shown here by comparison with giant zinnia blooms. Flowers at the bottom indicate other colors in the mixture.

☞ Doesn't Thumbelina make an attractive edge to a lawn? Bright, colorful, dwarf, heat-proof, and in bloom all summer long.

3161G

3162J

F₁ Sprite Snapdragons

3159G

Bright colors and good stem length make the Sprite Snapdragons excellent cut flowers.

Here's a brand new series of hybrid snapdragons that follows the modern trend toward more compact, earlier garden varieties.

The F₁ hybrid Sprites are indeed sprightly, growing only 14 to 18 inches tall, but producing many spikes of florets in gay and lively colors. The hybrid vigor is reserved for early flower production, not for towering, unmanageable plant height. This means that no staking is necessary, and yet you can have stems of ample size for cut flowers.

Available this year in cherry, crimson, scarlet, white and yellow as well as in mixture.

As you can see, the Sprites are less than knee high, with sturdy, wind-resistant plants.

EXCLUSIVELY WHOLESALE

What's new?

Zinnia **PINK BUTTONS**

ALL-AMERICA SELECTION '64. The same research program that created Thumbelina now produces another entirely new class of zinnias. In this Button class Pink Buttons has won an All-America award for 1964. Plants are mid-way in height between Thumbelina and Lilliput, and the flowers are of a beautiful salmon-pink color, with ample stems for cutting.

In V-seal: 1 oz. \$2.20; 1/4 lb. \$8.25; 1 lb. \$32.50.

RED BUTTONS

This variety, because of prior sale, was not entered in the All-America Selections, but it is of the same height and plant type as Pink Buttons, differing only in the flower, which is a bright scarlet-red.

In V-seal: 1 oz. \$1.80; 1/4 lb. \$7.00; 1 lb. \$27.50.

F₁ Marigold **DOUBLOON**

Tremendous, fully double, light yellow blooms on sturdy 3 foot plants. Remarkable cut flowers, heavy bloom production, and absolute uniformity. See color section.

In V-seal: 1/4 oz. \$2.75; 1 oz. \$10.50; 1/4 lb. \$40.00; 1 lb. \$160.00.

SOVEREIGN

Like Doubloon in height and maturity, but with lovely golden yellow blooms. All double. In V-seal: 1/4 oz. \$2.75; 1 oz. \$10.50; 1/4 lb. \$40.00; 1 lb. \$160.00.

DOUBLE EAGLE

The third of the Gold Coin series of F₁ American marigolds, Double Eagle has uniformly double light orange blooms. In V-seal: 1/4 oz. \$2.75; 1 oz. \$10.50; 1/4 lb. \$40.00; 1 lb. \$160.00.

F₁ Petunia **DANDY SERIES**

We offer for the first time this year several additional colors in the series begun earlier with Plum Dandy. These are F₁ multifloras, slightly taller than the Satins, but all showing excellent vigor and superior resistance to wet or cool weather.

BLUE DANDY, mid-blue.

INDIGO DANDY, indigo blue.

ROSE DANDY, clear rose pink.

WHITE DANDY, pure white.

YELLOW DANDY, attractive light yellow.

Each of the above 5, in V-seal: Carton of 4 trade pkts., \$3.00; 1/64 oz. \$2.60; 1/16 oz. \$10.00; 1/4 oz. \$38.00; 1 oz. \$150.00.

F₁ Petunia GAY LUSTRE

The new member of the hybrid grandiflora series, pictured in the color section and described on page 48.

Gloxinia GIANT HYBRIDS

We are very glad to offer for the first time seed from giant flowered gloxinia plants selected and maintained in our F₁ petunia greenhouses. Available only in V-seal packets of 1000 seeds. \$1.00 per pkt.

Carnation DWARF FRAGRANCE

Seedsmen who have seen this delightful carnation have admired it greatly, and have generally rated it above all others in their trials. Plants grow only 12 to 14 inches high, and remain both compact and upright through the entire season instead of sprawling or requiring supports as in the Chabaud strain. Colors in the mixture include white, blush, pink, salmon, rose, cerise and deep red, and the degree of fragrance is most impressive. We highly recommend this excellent strain. In V-seal: Carton of 4 x 1/4 oz. \$1.90; 1 oz. \$1.40; 1/4 lb. \$5.25; 1 lb. \$20.50.

**CARNATION
DWARF FRAGRANCE**

Compact, 12-14 inch plants, wide color range, high fragrance, and no support needed.

Marigold PETITE SERIES

The following dwarf varieties are being grown this year and are available from 1963 crop:

PETITE GOLD	PETITE HARMONY
PETITE ORANGE	PETITE SPRY

Bulk seed: 1 oz. 55c; 1/4 lb. \$2.00; 1 lb. \$7.50.

TERMS OF SALE AND CONDITIONS OF DELIVERY

Prices quoted in this list go into effect immediately for spot sales and 1962 contracts, superseding all previous quotations.

Please Note!

1. We no longer charge you for the containers in which the seed is packed. The price quoted for each unit of weight includes containers, whether V-seal or cotton bags.
2. Shipping cartons or bags and packing (that is, the exterior cover under which the seeds are shipped) will continue to be charged for as in the past, and are not returnable.
3. Quarter pounds, and other fractions of a pound, are now listed in detail in the catalog. Therefore, when you order $\frac{1}{4}$ lb. of seed you can find a specific price for it in the price list. **THIS MEANS THAT YOU NO LONGER CALCULATE $\frac{1}{4}$ LB. OR 6 OZ. OR OTHER FRACTIONS AT THE POUND RATE.** The rate is figured for you.
4. One ounce prices are, in general, much reduced from catalogs of previous years. This permits you to order 16 one ounce packages at what amounts to the pound rate plus labor and packaging cost to cover handling the smaller units.
5. We now offer many smaller units than ever before so that you can take advantage of the protection V-seal offers. Most of these small units are offered in cartons of four packages, **and are not available singly unless priced that way in the list.**
6. The smallest unit priced in this catalog is the smallest size available except by special order in V-seal Minipak.

HOW TO ORDER

If you use this catalog as an order form you will find it very simple to indicate the quantities you want on the dotted lines provided next to each item. We will replace your catalog with a fresh copy by return mail.

Examples:

ASTER BOUQUET TYPE				No charge for containers				
Specify the number of packages you want of each size.								
Cartons of four ¼ oz. pkgs.	Ounces	¼ lbs.	1 lbs.		Carton of four ¼ oz. pkgs.	Per oz.	Per ¼ lb.	Per lb.
.....	6		 278	AZURE BOUQUET	2.50	1.95	7.75	30.50
.....	2	1	 280	CRIMSON BOUQUET	2.50	1.95	7.75	30.50
.....	4	3	1..... 282	DEEP CREAM BOUQUET	2.50	1.95	7.75	30.50
1.....			 294	POWDERPUFFS	2.00	1.50	5.75	22.50
LATHYRUS LATIFOLIUS								
2 LBS. 4568 MIXED					—	.70	2.50	9.50

In the first line (above) the order is for six 1 oz. packages of Aster Azure Bouquet. The 6 in the ounce column indicates the fact that six packages are wanted, and the fact that the price is printed in red indicates that the seed is pre-packed in this size in V-seal only. This line would be billed, then, at six times the ounce price of \$1.95, for a total of \$11.70.

In the second line (Crimson Bouquet) the order is for the same total amount of seed, but two 1 oz. packages and one $\frac{1}{4}$ lb. package are specified. This seed would be billed at twice the ounce price of \$1.95 plus one unit of the $\frac{1}{4}$ lb. size at \$7.75, for a total of \$11.65. These, because it is indicated by red figures, would be packed in V-seal.

In the third line (Deep Cream Bouquet) the order calls for four 1 oz. packages, three $\frac{1}{4}$ lb. packages, and one 1 lb. package, for a total value of \$61.55 for the total weight of 2 lbs. of seed, all in V-seal.

In the fourth line (Powderpuffs) one carton of four $\frac{1}{4}$ oz. V-seal packages is ordered, and will be delivered at the carton unit price of \$2.00.

In the last line (Lathyrus Latifolius Mixed) the wavy arrow calls attention to the fact that none of the unit prices are printed in red, so no seed is packed in V-seal, so whatever quantity is ordered the figure should be placed in the space provided. In this case 2 lbs. are ordered, which would be billed at two times the 1 lb. price, for a total of \$19.00. If you should order 6 oz. of this seed it would be delivered in one cotton bag and priced at $1\frac{1}{2}$ times the $\frac{1}{4}$ lb. price, or \$3.75.

V-SEAL vs. BULK SEED

Please note that wherever the price figure is printed in red the seed is pre-packaged in V-seal units, and is available only in those units. Where prices appear in black the seed is not processed and is not packed in V-seal. Except where otherwise noted the smallest unit priced is the minimum sales unit.

ORDERING ON YOUR OWN FORMS

Should you place your order on our speedy self-mailing order blanks, your own purchase order, or ordinary letter, please indicate the number of units you wish to receive of each size, using a separate line for each size and each variety.

Examples: If you want four 1 oz. packages, please write the order as follows:

4 x 1 oz.

If you want $\frac{3}{4}$ lb. of seed please specify the size and number of units, as:

4 x 1 oz.
2 x $\frac{1}{4}$ lb. or 12 x 1 oz. or 3 x $\frac{1}{4}$ lb.

The minimum charge for each item billed will be fifty cents, due to the cost of handling small units.

All seeds are quoted F.O.B. El Monte, California, terms 60 days net, less 1 % cash 30 days. All invoices payable in U. S. dollars in or by New York or Los Angeles Exchange. All overdue accounts subject to sight draft without further notice.

We reserve the right to change any or all prices in this list without notice.

In case of crop shortages, orders will be filled pro rata only.

Crop failure or any cause beyond our control releases us entirely from delivery or from packaging in V-seal.

BODGER SEEDS LTD. warrants to the extent of the purchase price that seeds or bulbs sold are as described on the container, within recognized tolerances. Seller gives no other or further warranty, express or implied.

Should fulfillment of any order or contract be prevented or delayed by the act of God, war, blockade, revolution, prohibition of exports or imports, riots, strikes, lockouts, fires, and/or detention at sea or any other contingency beyond our control, we shall not be responsible for any loss and/or damage thereby.

PICTURES, PLATES AND PUBLICITY

PETUNIA DISPLAY CARDS: To help you and your nursery customers we now offer full color display card illustrations of each of the Satin and Lustre series F_1 hybrid petunias. The cards are $4\frac{5}{8} \times 5\frac{5}{8}$ inches, printed in sunfast inks, and are available either plain or with moisture proof lamination. Individual pictures are ideal sales stimulants because they can be put on display right with the seedling plants. Market studies show impressive increases in sales when the customer sees a color picture that tells him what he is getting. The more pictures you can get on display, the greater your sales. The cost is low; the returns are high.

Any Lustre or Satin Hybrids	Mylar laminated	Plain (not waterproofed)
Ten cards any assortment	9 $\frac{1}{2}$ c each	5c each
Fifty cards any assortment	7 $\frac{1}{2}$ c each	4c each
One hundred or more assorted	6c each	3c each

EKTACHROMES: If you need Ektachromes for full color reproduction purposes (either letterpress engravings or lithographic separations) we can usually supply high quality 4 x 5 or 8 x 10 inch color photographs on a loan basis, the Ektachromes to be returned after use. Please write for information about availability of specific subjects in which you are interested. Sixty day rental fee Each \$15.00

PHOTOGRAPHS: We can supply professional quality photos of (1) all varieties of which we offer seed, (2) most varieties we have listed in recent years, and (3) certain subjects we do not normally grow; usually several poses of each subject. All photos are 8" x 10", single weight glossy paper. Each \$2.00

KODACHROME SLIDES: We can supply high-fidelity 35mm slides (mounted 2" x 2") of many of the flowers we grow. These are close-ups of individual flowers or groups, manufactured from our professional-size originals. Each 60c

PUBLICITY MATERIAL: Each spring we send a series of releases of garden information to hundreds of newspapers, radio and television stations, and magazines. They are widely used by garden editors. If you have need for this type of material, or if you have a suggestion to make concerning the addition of a publication or station to our list, just drop us a line and we'll be glad to comply. The service is free.

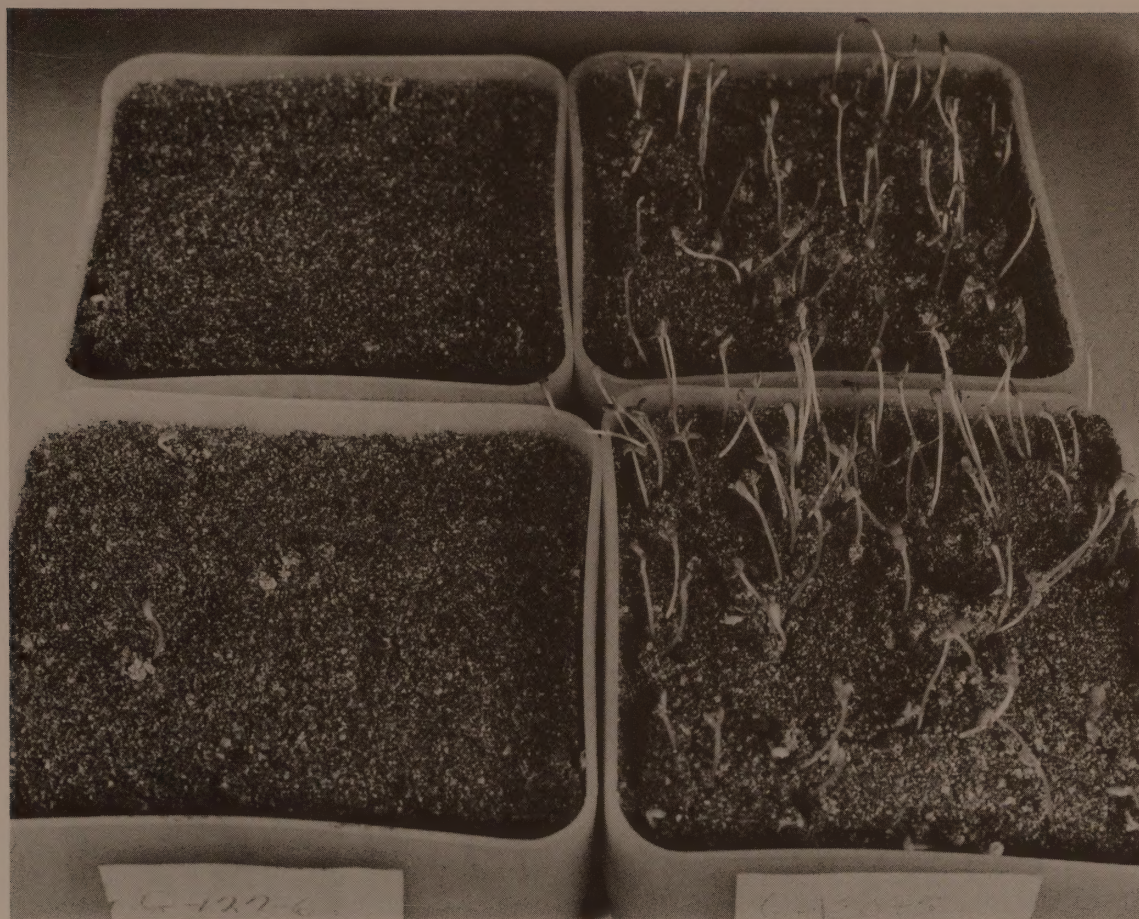

COLOR PLATES: We have a large selection of color plates available. 120 screen, square finish, vinyl mold nickelsteel. Chosen from our Electro Catalog, our seed catalogs, or proofs submitted, and MADE UP TO ORDER ONLY. Allow ten days for completion of your order.

Electros of color plates are supplied unmounted (patent base) unless mounting is specifically requested. There is an additional charge of 25% for mounting. If we do not have an electro the size you need, you can purchase a photo and have your printer make a cut for you. Electro Catalog available free.

ELECTRO PRICES ARE AS FOLLOWS:

SIZE	APPROX. DIMENSIONS	4-COLOR PROCESS
A.....	1 $\frac{1}{4}$ " x 1 $\frac{1}{2}$ "	\$ 22.50
B.....	2" x 2"	22.50
C.....	2" x 2 $\frac{1}{4}$ "	22.50
D.....	2 $\frac{1}{4}$ " x 2 $\frac{1}{4}$ "	25.00
E.....	2 $\frac{3}{4}$ " x 2 $\frac{3}{4}$ "	30.00
F.....	2 $\frac{3}{4}$ " x 3 $\frac{1}{4}$ "	35.00
G.....	3 $\frac{1}{4}$ " x 4 $\frac{1}{4}$ "	40.00
H.....	4 $\frac{1}{4}$ " x 5 $\frac{1}{4}$ "	47.50
J.....	5" x 6"	55.00
K.....	Larger	75.00

LITHOGRAPHIC SEPARATIONS: If you print by lithography we can supply dot reproduction proofs of any of our color plates for easy conversion to offset printing. Cost is \$16.00 per set, regardless of size.

You can see the difference

Pictured above is an emergence test showing a comparison between identical lots of four year old aster seed. You will rarely have occasion to witness such night-and-day differences in the normal course of events, but similar V-sealed samples on the right and paper packet samples on the left **began to show marked disparity in growth rate and vigor only six months after harvest.** It is this clearly visible advantage that makes the Bodger V-seal (Vitalseal) processing and packaging the most important single innovation in flower seeds since the discovery of hybrid vigor.

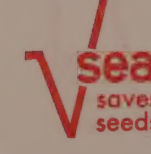

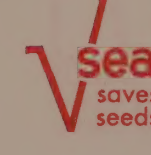

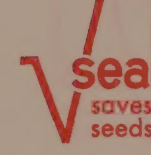

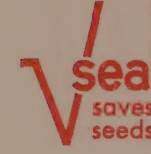

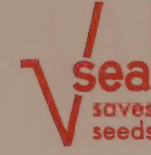

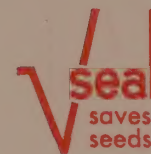

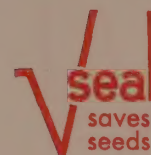

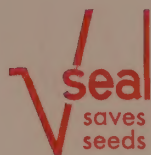

Bodger research is continuous, imaginative, original, and effective.

Seed deteriorates mainly as the result of exposure to the high or varying humidity that is common to the atmosphere of most of the inhabitable parts of the world. At very low humidities seed maintains its ability to germinate for incredible lengths of time, even when the normal life span may be only a single season. The V-seal program is the first effective way of drying and maintaining flower seeds under this ideal storage condition.

What does this V-seal program mean to you? First, it means that your flower seeds are dried promptly and scientifically upon harvest. This amounts to "curing" under control, a great improvement over taking chances with variations in the weather. It results in less chance of seed-borne disease and insect infestation, and promotes higher germination at the outset. The seed is dried to its ideal moisture content, a different point for different kinds. The ideal is the point at which the seed keeps best — not too dry, not too moist.

As soon as processing is complete the seed is stored in moisture-proof bulk containers until germination tests have been made, and then it is packed in various size units of V-seal pouches. This packing is done in a room which is held under rigid control at very low humidity and uniform temperature. Once heat-sealed the V-seal pouches maintain the low relative humidity like a time capsule, regardless of surrounding conditions. This sealed-in climate travels with the seed to you and retards aging so much that you can depend on the seed to germinate satisfactorily for as long as you care to hold it on inventory.

Of course, this is of prime importance to you in the case of short-lived types like aster, larkspur, delphinium, and so on, for inventory at the end of the season has always been a complete loss for responsible seedsmen. Even longer-lived kinds like zinnia keep better in V-seal and have greater vigor than unprotected seed after only a few months of storage under unfavorable conditions.

In the last analysis, what we are all trying to accomplish is to provide the gardener with fresh, vigorous, high-germinating seed. He gets just that if it has been held at its peak of perfection in V-seal, for the normal aging of the seed does not begin until the package has been opened, and both you and your customer may expect the seed to continue to live as long after it has been released from control as if it had been brought directly from the field at that time.

You will note as you leaf through our catalog that the majority of the prices are printed in red ink. These are the varieties and units of size packed in V-seal this year. A number of species are being offered in V-seal for the first time this year. Others will be added in the future as our research continues.

You will get the most out of V-seal if you do a little calculating in advance of ordering. It is wise to order in multiple units, and then open the packages as needed. For example, instead of ordering a single 1 lb. package, order 16 x 1 oz., or 4 x 1/4 lb., or 2 x 1/4 lb. and 8 x 1 oz. The reason for this method lies in the fact that once the seal has been broken the ideal storage conditions are lost, and resealing simply seals wet air (it may not feel wet to you, but it is) in the package.

Plan to store your V-seal inventory in a place of uniform temperature if you are seeking perfection. The basement is a good spot, for the moisture which made it unsuitable in the past has no effect on the V-seal pouches. V-seal is important to you because it assures you of top quality seed on shelf, regardless of the length of its journey to you or the humidity through which the pouches may have passed. It is important because it keeps the seed fresh for as long as you may need to hold it yourself. It is important because your customers will find the seeds you sell to be unusually vigorous and high in germination.

Accelerated aging demonstration

It still takes five years to run a five year longevity test. There is no satisfactory short-cut. For that reason, the massive drying and testing program initiated by Bodger Seeds a decade ago is the only source of complete data on a wide variety of flower species, and this carefully gathered information makes V-seal a successful and dependable process.

Since it is certainly not practical to conduct a 5 or 10 year storage program as a demonstration to your customers, we suggest an accelerated aging demonstration that is both easy to do and impressive. It clearly indicates the harm caused by high humidity and proves the efficiency of V-seal pouches under extreme conditions.

The materials needed are one wide-mouth quart Mason jar, some old rags or cotton bags, a little aluminum foil, a small cellophane bag, and three 1/4 oz. V-seal pouches of aster seed.

Stuff enough cotton material into the jar to fill it half way. Fill the jar with water, wait until the material is thoroughly soaked, then pour off all the free water. Lay a piece of aluminum foil

Cellophane storage left, V-seal right

loosely on top of the cloth to provide a barrier against contact with the cloth (this is a **humidity**, not a **liquid** water test). Then put an unopened 1/4 oz. V-seal pouch on the aluminum. Open a second pouch of the same lot number and seal the contents in cellophane. Lay this on top of the V-seal pouch. Close the jar tightly and leave closed at room temperature for 30 days. At the conclusion of the 30 day period remove the two samples from the jar and conduct germination tests of these and the third sample, which you have held in ordinary storage as a check. The resulting variation is sharp, as you can see by the above illustration.

V-seal Minipak fractional ounces are available only in multiples delivered in full cartons.

V-seal® Maxpak

For the first time this year, and as the culmination of a protracted series of experiments with new materials, we are glad to be able to extend the benefits of V-seal to bulk seed containers. These tough, highly efficient units are called V-seal Maxpak. They permit long-term storage which will hold seed in ultra-dry condition indefinitely, awaiting the appropriate time for opening and packeting.

The unit sizes of Maxpak vary according to the nature of the seed, so to assist you in placing orders we are listing below the units available in the various kinds of flower seeds.

MAXPAK UNITS OF 10, 15, and 30 LBS.

Alyssum	Celosia	Lobelia	Portulaca
Amaranthus	Clarkia	Nemophila	Schizanthus
Aquilegia	Coleus	Nierembergia	Stock
Balsam	Dianthus	Phacelia	Sweet William
Candytuft	Eschscholtzia	Phlox	Wallflower
Carnation	Gypsophila	Poppy Shirley	

MAXPAK UNITS OF 10, 12½, and 25 LBS.

Aster	Digitalis	Kochia	Petunia	Salvia
-------	-----------	--------	---------	--------

Coreopsis	Zinnia Linearis	flowered)

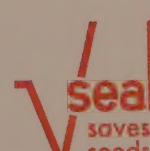

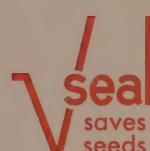

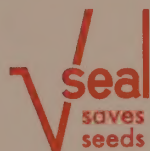

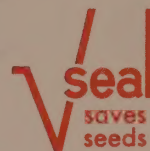

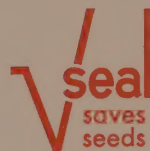

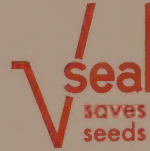

In addition to the above classifications are Marigolds, which are available only in 5 lb. units, and Acroclinium and Nemesia, which are available in 2 and 4 lb. units.

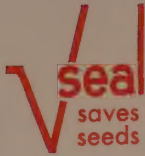

V-seal® Minipak

Once a grower has experienced the eye-opening quick and uniform germination of seed from a V-seal pouch and seen the seedling vigor, he wants all his seed this way.

V-seal **Minipak** is what you can sell him. Unlike the seedsman's sizes in this catalog, which are larger than normal sowing size, **Minipak** pouches are the right quantities for direct grower sales. You can deliver right out of stock 1/16 oz. pouches of lobelia, 1/4 oz. pouches of zinnia, 1/128ths of F₁ petunias, or similar sizes of any of the flower seeds that are processed in V-seal.

Minipak is a special packing run, put up for your order. Thus an advance order is wise, and the **minimum is 20 of a kind** (ten of F₁ petunias, etc). Minipack does all the work for you. The pouches are weighed, labeled and sealed when delivered, ready to sell, and the cost is very low indeed. If you can profit by this service and the sales appeal of V-seal protection all the way to the seedbed, send for our folder detailing carton sizes and prices.

ASTERS

All Asters listed here can be grown by the home gardener wherever Asters are popular. Most of these Asters are also in great demand as florist's commercial varieties, especially those marked "f". In any case, seed we offer is of highest florist quality.

ASTER PRINCESS IMPROVED WILT RESISTANT (Bodger)

An ideal type for florists, suitable also for home gardens. Flowers have crested center that remains full when flower is completely open, surrounded by multiple rows of guard petals.

The Princess Improved strain has a compact branching plant form 20" - 24" high, completely covered with 3" true Princess flowers when plants bloom in late August. Long stemmed blooms keep excellently when cut, while plants provide the best garden landscaping color when planted at 9" spacing.

.....			746	BALL VARIETIES MIXED, a balanced formula blend of all colors	2.20	1.70	6.50 25.50

ABSOLUTELY UNIQUE!

Everybody is interested in knowing what's new in flowers each year for the very good reason that novelty is one of the most potent stimulants to sales. Even relatively minor changes in flower varieties are enough to arouse curiosity and the desire to "try it out".

When a really major advance comes along (and they're rare), the curiosity and desire build up to impressive proportions. If the achievement comes in a kind of flower most gardeners have difficulty in growing the effect is lessened, but if it is in a class that already holds high popularity, the effect is reinforced.

There is a MAJOR advance in a MAJOR flower class this year. It's Thumbelina Zinnia. Turn to page 18 for details.

Thumbelina

Sizes priced in red are packed only in V-seal.
Sizes priced in black are not packed in V-seal.

Meet Thumbelina Zinnia on page 18

ZINNIAS

TALL, LARGE FLOWERED TYPES

ZINNIA BODGER'S GOLD MEDAL DAHLIA FLOWERED (f) (Bodger)

Introduced by us in 1919; all the colors of our introduction since then. Plants medium height, 2½' - 3', bearing on strong stems huge fully double flowers resembling the show type of Dahlia. Most popular varieties marked with asterisk (*).

Specify the number of packages you want of each size.

MODERN TIMES

GIANT CACTUS FLOWERED ZINNIAS

The cactus flowered zinnias described here are all new varieties which add extra colors and extra attractiveness to the class. Color plates are available for each of the separate strains and for the Dark Jewels Mixture.

Specify the number of packages you want of each size.				No charge for containers		
Cartons of four 1 oz. pkgs.	1/4 lbs.	1 lbs.		Carton of four 1 oz. pkgs.	Per 1/4 lb.	Per lb.
.....		1248	CHERRY TIME (Bodger), beautiful variety in shades of cherry, cerise, and spiraea red. The color intensity is strong, and the effect magnificent.	3.40	3.00	11.50
.....		1250	LILAC TIME (Bodger), shades of rich, rosy lilac, a new color treat in the cactus class.	3.40	3.00	11.50
.....		1308	PRIDE (Bodger), remarkably vivid combination of golden orange and scarlet flame, this bicolor is lively, vigorous, and distinctive.	3.40	3.00	11.50
.....		1252	SNOW TIME (Bodger), this is the nearest to white of any cactus flowered zinnia, and it has the added virtue of producing full-sized, vigorous plants.	3.40	3.00	11.50
.....		1338	DARK JEWELS (Bodger), specialized formulated mixture of giant cactus flowered zinnias with particular emphasis on the new, strong, dark colors including all the varieties listed above as well as others in the class. There's just a hint of Snow Time in the formula to make the deep colors seem even troner by contrast.	3.00	2.75	10.50

SEMI-TALL, MEDIUM FLOWERED TYPES

ZINNIA HARMONY TYPE (Scabious Flowered) (f)

Plants 2 1/2' - 3', bearing numerous medium sized flowers, resembling annual Scabiosa or Harmony Marigold. Our improved strain has long stems and is excellent for cut flowers.

.....		1484	FINEST MIXED, bright shades (1 oz. \$1.00)	—	3.50	13.50
-------	-------	----------	--	---	------	-------

Sizes priced in red are packed only in V-seal.
Sizes priced in black are not packed in V-seal.

Thumbelina

Thumbelina is absolutely unique. It is without question the most useful and distinctive new zinnia since the dahlia flowered class was introduced by Bodger 44 years ago.

Just imagine a row of little plants only 6 inches high, covered with double and semi-double $1\frac{1}{4}$ to $1\frac{1}{2}$ inch flowers in white, yellow; pink, lavender, orange and scarlet. Now think of how tremendously useful such a border would be if it stayed in bloom for three solid months without a bit of special care.

Thumbelina matches these qualifications, and more. The tiny plants begin to flower when they are less than 4 inches high, mak-

ing charming specimens blooming in flats or peat pots. As the season progresses the plants continue to expand with new growth and an endless supply of new buds. But this expansion is always rigidly controlled by the dwarf character of the variety so that even at full size the plants are bushy, solidly compact, but only 6 inches tall.

The name Thumbelina is a feminine diminutive of Tom Thumb, which was until now the dwarfest zinnia, and of course is particularly appropriate because it is also the name of the little girl who was born in the heart of a flower in the famous Andersen fairy tale.

ZINNIA THUMBELINA (See page 18)

Sizes priced in red are packed only in V-seal.
Sizes priced in black are not packed in V-seal.

ZINNIA TOM THUMB (ra)

Plants 8" - 10", compact, some taller. Lilliput type flowers.

Specify the number of packages you want of each size.				No charge for containers		
1 oz.	Cartons of four 1 oz. pkgs.	1/4 lbs.	1 lbs.	Carton of four 1 oz. pkgs.	Per 1/4 lb.	Per lb.
.....				3.60	3.25	12.50

..... 1438 FINEST MIXED, nice range of colors ...

ZINNIA RED BUTTONS

..... 1472 A new variety, the first of a new button class of zinnias. Plants are reliably dwarf, growing 10" to 12" tall. Flowers are deep scarlet-red, double, and 1 1/2" across. Midway in height between Thumbelina and Lilliput.

(\$1.80 per oz.) — 7.00 27.50

ZINNIA LINEARIS

A species Zinnia. Blooms early and long, bearing hundreds of flowers at one time. Height 8" - 10". Much used for formal gardens, and popular for pots and edging also. Long lasting when cut. Compact.

..... 1592 ORANGE, semi-double, yellow striped petal (\$1.70 per oz.) — 6.50 25.50

ZINNIA PERSIAN CARPET ALL-AMERICA SELECTION '52 (Bodger)

..... 1492 Fully double miniature flowers variegated in many combinations of gold and silver with maroon, wine, bronze, etc. Cutting stems on everblooming mound-shaped plants (A.M., R.H.S. '57) 3.40 3.00 11.50

CREeping ZINNIA (Sanvitalia procumbens) (a)

..... 6230 DOUBLE YELLOW 3.00 2.75 10.50

ZINNIA OLD MEXICO

ZINNIA OLD MEXICO (a)

1/4 oz.

..... 1494 OLD MEXICO ALL-AMERICA SELECTION '62. This new tetraploid zinnia has sharply bi-colored blooms averaging 2 1/2" across, with the main petal area a deep mahogany-red, and the petal edges and tips overlaid with shades of gold. Plants grow 12" to 15" tall, producing a large number of blooms over a long period. Resistant to mildew and other foliage diseases.
We offer only originator's seed, packed in V-seal. (1/4 oz. \$1.30; 1 oz. \$4.25).. — 16.25 65.00

Sizes priced in red are packed only in V-seal.
Sizes priced in black are not packed in V-seal.

FLOWER SEEDS

We call particularly to your attention the fact that this catalog now offers a larger assortment of sizes of packages than ever before. This is the result of the expansion of the V-seal system so that more seeds are protected against aging, and smaller units are being packaged in V-seal in order to hold this protection to the ultimate. For instance, when you open a one ounce package of aster seed and use only a part of it, the balance goes out of longevity control as soon as you open the package. If you have ordered a carton of four 1/4 oz. packages, you can continue the control in four sections.

Since V-seal involves pre-packaging in regular packing runs as the seed is processed your order is no longer filled in the old cracker-barrel method. The seed is held under control right from the beginning of its storage following harvest, and your one ounce package of larkspur was put up perhaps a month before you ordered it.

However, pre-packaging does require one important piece of co-operation on your part. Please observe the size units offered in the price columns. If we offer only 1/16 oz. units and 1/4 oz. units, then 1/8 oz. units are not available, and you should order 2 x 1/16 oz. if you need that quantity. Similarly, the smallest unit offered in the catalog is the smallest unit available. Please observe this limitation when ordering to avoid unnecessary delay in correspondence.

-------	-------	------------	--	-----	---	------	------

Sizes priced in red are packed only in V-seal.
 Sizes priced in black are not packed in V-seal.

ANTIRRHINUM (Snapdragon)

The F₁ hybrid Sprite Snapdragons have compact, bushy plants and many base branches.

New!

F₁ Hybrid Nanum

Sprites

Here they are! Genuine semi-dwarf snapdragon hybrids of incredibly uniform height and color, and a capacity to bloom that will delight any gardener.

These beautiful F₁ hybrids are ideal for mass beds, since they require no staking, and they make a border that looks as if it were manicured to the last leaf and petal every hour of the day, even though they actually require no special care at all.

The Sprites belong in the nanum class of snapdragons, and compare in height with such old open pollinated varieties as Nelrose and Eclipse, growing 14 to 18 inches tall depending on the locality. But here the similarity ends, for the technique of F₁ hybrid breeding gives these new strains a uniformity that is impossible to duplicate in any other way.

The plants come into bloom early, but since they all have a wealth of base branches and the vigor to bring the branches along to excellent size and flower production, the period of bloom is long and glorious.

In addition to their versatility in many garden applications, the Sprites produce spikes of ample magnitude for cut flowers, and are available in 6 clean, clear colors, as listed below:

Sizes priced in black are not packed in V-seal.

ANTIRRHINUM F₁ HYBRID ROCKETS (Hybrid Snapdragon) (af)

While F₁ hybrid snaps have been in use by greenhouse growers some time, this series of Rocket hybrids was the first to be marketed for outdoor garden use. The reliability and endurance of these fine, tall hybrids has been demonstrated across the entire country and their superiority above standard tall varieties is as evident as that of F₁ petunias over open pollinated strains. A trade pkt. equals approximately 1/128 oz.

				Seed harvested from newest and most advanced varieties.				
.....			2680	FINEST MIXED	—	—	2.00	7.50
				CARDINAL CLIMBER (See Ipomea)				

Smaller than Tom Thumb.
Always fresh and new looking,
since old flowers are covered by new
foliage.
Never needs pruning.
Blooms continuously until frost.
Absolutely unique! Thumbelina is the
finest and most unusual zinnia novel-
ty in 44 yerars.
See page 18

-------	-------	-------	-------	------	------	---	------	------	-------	-------

GERBERA (Transvaal Daisy) (grf)

A superior strain of good vitality developed recently on the Pacific Coast, containing single and semi-double flowers with a greatly improved color range, especially in the desirable light shades.

Best germination results from the following technique. Dust seed with chlordane to prevent pre-emergence insect damage. Sow on top of seed bed, covering as lightly as possible with peat or similar material. Hold only slightly moist for first 4 days and give heavy moisture thereafter. Germination begins in 7 to 9 days and is complete in 14 days.

.....					3884	GIANT HYBRIDS MIXED (½ oz., approx. 1000 seeds, \$2.00)	3.75	14.25	56.25	225.00
-------	-------	-------	-------	------	------	--	------	-------	-------	--------

Sizes priced in red are packed only in V-seal.
Sizes priced in black are not packed in V-seal.

GEUM (Avens) (p)

This perennial flower sends up 1 1/2' to 2' stalks from a basal rosette of leaves. Flowers are double, formed like little roses.

Specify the number of packages
you want of each size.

Cartons
of four

..... 3892 MRS. BRADSHAW, scarlet

GLORIOSA DAISY (Tetraploid Rudbeckia)

..... 6116 SINGLE MIXED, large daisy-like flowers, 5" across, with dark centers and broad petals in yellow, mahogany, and bicolor combinations. Blooms reliably the first year from seed, and perennially thereafter.

GODETIA TALL DOUBLE SHAMINI (af)

..... 4038 FINEST MIXED plants up to 2 1/2' tall, with large, silky, double flowers in white, pink, crimson, lavender, and rose

If you are familiar with the dwarf and compact appearance of Gomphrena Cissy (left) you can have a good idea of the size and shape of Thumbelina Zinnia plants. Both make a fine edging material, both thrive in hot weather, both bloom until frost. Thumbelina has the twin advantages of quick, easy germination and a series of bright colors in mixture. Turn to page 18 for complete Thumbelina description.

MINIMUM SALE QUANTITIES

Because of the fact that a large part of our seed is now pre-packaged immediately after processing, the units offered in the catalog price columns are the only sizes available. For instance, on this page Ipomeas are priced in the ¼ lb. and 1 lb. columns, and are not available in less than ¼ lb. amounts. Kochia is offered in cartons of four 1 oz. pouches, ¼ lbs. and 1 lbs., but is not available in single ounce quantities. If you require intermediate amounts, please order multiples of the smaller sizes.

#### MARIGOLD DWARF LARGE FLOWERED (a)

.....	.....	....5052			
.....	.....	POT O'GOLD, deep golden orange 3 1/2"-4"	.70	2.50	9.50

Just between us girls . . .

Tiny little plants catch the gardener's attention just the same as tiny little girls. Neat, fresh, and sweet are some of the words they use. The marigold shown here is Brownie Scout, and the little imp sitting on the line is Thumbelina, representing the first Zinnia ever to attain the ultimate miniaturization that brings fond looks and instant affection.

**Sizes priced in red are packed only in V-seal.**  
**Sizes priced in black are not packed in V-seal.**

# MARIGOLD FRENCH

In double French Marigold, we recommend the Harmony (or crested) type whenever possible as it flowers much more profusely under difficult outdoor conditions. Classification is by plant height.

## EXTRA DWARF DOUBLE TYPES (6" - 8")

## F₁ HYBRID PETUNIAS

F₁ hybrid petunias are divided into three broad classes, multifloras, grandifloras and doubles. All show greater vigor and greater flower production than the old open pollinated types from which they were derived, but between hybrids there are differences well worth noting. The F₁'s listed in this catalog have all been tested in exhaustive trials which are conducted annually by our research department, and we believe them to be the outstanding colors in each class.

All F₁'s are packed in V-seal to preserve vigor and germinating ability. Seed count averages 345,000 per ounce; a trade packet contains approximately 1/256 of an ounce.

The Bodger petunia trials

Red Satin greenhouse production

### PETUNIA F₁ HYBRID MULTIFLORA (af)

The multiflora class has flowers which correspond in size and character to the old hybrida and hybrida nana compacta types, but the comparison ends at that point, for F₁'s have impressively greater capacity to produce flowers than their open pollinated parents, and the breeder has been able to exert closer control over plant habit as well, increasing uniformity and reducing undesirable characteristics. A prime example is the Satin group, listed below.

## THE SATINS

With Red Satin leading the way in 1957, earning an All-America award in that year, the Satin Class has expanded until there are now six hybrids of similar plant and flower type. The class is outstanding in its dwarf, compact habit of growth.

Specify the number of packages you want of each size.					No charge for containers				
Cartons of four Trade Pkts.	1/64 oz.	1/16 oz.	1/4 oz.	1 oz.	Carton of four Trade Pkts.	1/64 oz.	1/16 oz.	1/4 oz.	1 oz.
.....	.....	.....	.....	....8996	CORAL SATIN (Bodger) ALL-AMERICA SELECTION '61. With its true Satin-style, tenaciously compact plants, its ability to bloom beautifully right through rainy and windy periods, and its lovely coral-rose flowers Coral Satin won the same All-America honors for 1961 as Red Satin did in 1957. Plants retain their low mound form even to the end of the season, filling their centers with blooms instead of splitting open as they age. Flowers are 2" to 2 1/2" across, midway between Peach and Red Satin in color effect.				
					3.40	2.90	11.50	45.25	180.00
					<del>4.40</del>	<del>4.00</del>	<del>15.50</del>	<del>61.50</del>	<del>245.00</del>
.....	.....	.....	.....	..8994	DAWN SATIN (Bodger), this admirable hybrid helps fill out the spectrum in the Satin series with a light pink flower, lighter than either Pink or Peach Satin. The exact color is a light shade of Neyron rose. The typical dwarf, compact Satin type plants grow only 12" tall, and maintain this habit, covered with bloom, all season long.

Cartons of four Trade Pkts.	Specify the number of packages you want of each size.					Carton of four Trade Pkts.	No charge for containers			
	1/64 oz.	1/16 oz.	1/4 oz.	1 oz.			1/64 oz.	1/16 oz.	1/4 oz.	1 oz.
.....	.....	.....	.....	....9016	PEACH SATIN (Bodger), a lovely multiflora with unusually large flowers which open first to a coral color, changing the next day to an appealingly soft salmon-pink. Plants are well-behaved, compact and carry the will-to-bloom feature so prominent in the best F ₁ hybrids. (A.M., R.H.S. '59) .....	3.40	2.90	11.50	45.25	180.00
.....	.....	.....	.....	....9018	PINK SATIN (Bodger), increasingly popular, for its rounded, compact plant habit, tremendous production of blooms, and excellent rose-pink color all come close to the ideal for this class. Time after time in comparative trials Pink Satin not only surpasses other multifloras in neatness and floriferousness during the course of the season but continues to look fresh and young after all those around it have deteriorated in old age. (A.M., R.H.S. '59) .....	3.40	2.90	11.50	45.25	180.00
.....	.....	.....	.....	....9026	RED SATIN (Bodger) <u>ALL-AMERICA SELECTION</u> '57. The vivid scarlet-red All-America winner with the persistently dwarf, compact, rounded plants so warmly welcomed by gardeners. (A.M., R.H.S. '59) .....	3.40	2.90	11.50	45.25	180.00
.....	.....	.....	.....	....8990	WHITE SATIN (Bodger), a welcome addition to the Satin class, these pure white flowers are borne on typical Satin-type plants and have the added feature of a slight crepe effect in the petals. White Satin comes into bloom earlier than other white multifloras, and preserves its neat appearance to the very end of the season. ....	3.40	2.90	11.50	45.25	180.00

OTHER F₁ HYBRID MULTIFLORAS

.....	.....	.....	.....	....9006	BLUE RIBBON (Bodger), this top-notch multiflora hybrid blooms freely and reliably in all areas, bearing large numbers of deep, violet-blue flowers. Seedsmen of wide experience in hybrid petunias call this the best blue multiflora presently on the market, but it is not included among the Satins because of its larger plant habit. (A.M., R.H.S. '59) .....	3.40	2.90	11.50	45.25	180.00
.....	.....	.....	.....	....9044	PLUM DANDY (Bodger) new. A very bright, very compelling shade of fuchsia purple on husky and productive plants. This hybrid has been one that stood out among the hundreds in our trials, and it will certainly excite favorable comment among your customers. 15" tall. ....	3.40	2.90	11.50	45.25	180.00
.....	.....	.....	.....	....9004	COMANCHE <u>ALL-AMERICA SELECTION</u> '53, scarlet red. ....	2.60	2.15	8.25	31.50	125.00
.....	.....	.....	.....	....8982	COMET, crimson-red with perfect white star. ....	2.60	2.15	8.25	31.50	125.00
.....	.....	.....	.....	....9008	GLITTERS, <u>ALL-AMERICA SELECTION</u> '57. Attractive bicolor red and white. ....	4.20	3.75	14.25	56.50	225.00
.....	.....	.....	.....	....9010	INCA, rose-red with gold throat. ....	2.60	2.15	8.25	31.50	125.00
.....	.....	.....	.....	....8984	MARS, crimson-red. ....	2.60	2.15	8.25	31.50	125.00
.....	.....	.....	.....	....9022	MERCURY, medium light blue. ....	2.60	2.15	8.25	31.50	125.00
.....	.....	.....	.....	....9020	PALEFACE <u>ALL-AMERICA SELECTION</u> '55, white. ....	2.60	2.15	8.25	31.50	125.00
.....	.....	.....	.....	....9024	POLARIS, violet-blue with white star. ....	2.60	2.15	8.25	31.50	125.00
.....	.....	.....	.....	....8988	SATELLITE, rose with white star. ....	2.60	2.15	8.25	31.50	125.00
.....	.....	.....	.....	....9096	SUGAR PLUM, orchid pink, penciled and shaded orchid-purple. Most spectacular for multiflora and very reliable. ....	2.60	2.15	8.25	31.50	125.00
.....	.....	.....	.....	....8998	F ₁ MULTIFLORA MIXTURE, all colors blended. ....	2.60	2.15	8.25	31.50	125.00

Sizes priced in red are packed only in V-seal.  
 Sizes priced in black are not packed in V-seal.

### PETUNIA F₁ HYBRID GRANDIFLORA (af)

This class has flowers which correspond to the open pollinated grandifloras, with larger blooms than the multifloras, but generally somewhat fewer. Some hybrids in this class are heavily fringed or ruffled, while others have plain edges but extra large blooms up to 4 1/2" across.

### THE LUSTRES

This superior group, beginning with Blue Lustre, is now expanded to the five hybrids listed below. All have waved petals, all have compact, low-growing plants, all produce well under a wide range of climatic conditions.

Specify the number of packages  
you want of each size.

No charge for containers

Trade Pkts.	1/64 oz.	1/16 oz.	1/4 oz.	1 oz.		Trade Pkts.	1/64 oz.	1/16 oz.	1/4 oz.	1 oz.	
.....	.....	.....	.....	....	9052	BLUE LUSTRE (Bodger), the big waved grandiflora flowers are deep mid-blue in hot weather ,becoming almost as dark as Elk's Pride in cool weather. Plants grow 1 foot tall and 1½ to 2 feet across, beginning to bloom very early and continuing to the end of the season. (A.M., R.H.S. '59) .....	1.40	5.15	20.25	80.25	320.00
.....	.....	.....	.....	....	9060	GAY LUSTRE (Bodger), a new addition to the Lustres with gaily variegated blooms of rose and white. This is the best hybrid we've seen in the variable color pattern type. Compare with Crusader. ....	1.40	5.15	20.25	80.25	320.00
.....	.....	.....	.....	....	9072	SALMON LUSTRE (Bodger), this new and beautiful Lustre is a rich salmon-pink. Plants grow only a foot tall, spread to two feet across, and produce steadily over the whole plant area right through the season. ....	1.40	5.15	20.25	80.25	320.00
.....	.....	.....	.....	....	9070	SCARLET LUSTRE (Bodger), glowing and vivid scarlet blooms with waved and fringed petal edges and a bright yellow throat make this grandiflora hybrid an instant favorite. Plants reach a height of only 1 foot, spreading to 2 feet across and blooming steadily over the entire area. (H.C., R.H.S. '59) .....	1.40	5.15	20.25	80.25	320.00
.....	.....	.....	.....	....	9064	ROSE LUSTRE (Bodger), a strong rose-pink color unique in its class. It is hard to imagine how brilliant, how commanding these flowers can be, but seeing is believing. Blooms are 3½" across, waved and lightly fringed, and with a light yellow throat. ....	1.40	5.15	20.25	80.25	320.00

## PETUNIA DISPLAY CARDS:

The full Satin and Lustre series are now available in natural color display cards 4 5/8 x 5 5/8 inches, either laminated or plain finish. See page 6 for details.

### PETUNIA F₁ HYBRID ALL DOUBLE (af)

These most spectacular of all petunias justify their high cost with blooms of rare beauty. While the plants do not produce as many flowers as the other types each one is a masterpiece in itself, keeping well when cut, and adding an elegance to planter boxes unmatched by any other flower.

## PELLETED SEED

### F₁ HYBRID PETUNIAS

The technique of applying an inert coating to small, expensive seeds has advanced greatly in recent years. Pelleted seed is now reliable and quick in germination, and with this fact the obvious advantages of the processed seed can be utilized.

Increasing the size of F₁ hybrid petunia seed to approximately the size of Balsam seed makes it possible for the seed to be packaged by machinery, makes inner liners unnecessary, makes 100 seeds look like a respectable amount, and makes it possible for amateur gardeners to space and plant these expensive seeds in such a way as to make success much more likely than with raw seed.

Special planting instructions are imperative when pelleted petunia seed is delivered, and we will be glad to provide a suggested cultural technique on request.

In general, there is about an 90-fold increase in size between raw and pelleted petunia seed, although this may vary somewhat.

Specify the number of packages  
you want of each size.

No charge for containers

**Sizes priced in black are not packed in V-seal.**

## INTERMEDIATE TYPES

Petunias in this class have medium-sized flowers and compact plants. They, like the Giant types, are unique and beautiful enough to merit the painstaking "brush-every-flower" hand pollination technique necessary for their production.

### PETUNIA RUFFLED NANA COMPACTA (a)

Specify the number of packages  
you want of each size.

No charge for containers

### PETUNIA GRANDIFLORA NANA COMPACTA (a)

.....	.....	.....	....5444	VELVET BALL, ALL-AMERICA SELECTION '39, round compact, ball-shaped 8" plants velvety wine-red blooms 2 1/2"-3" wide. ....	2.20	1.75	6.50	25.00
.....	.....	.....	....5446	KING HENRY, velvety red. ....	2.20	1.75	6.50	25.00

## GIANT TYPES

### PETUNIA GIANTS OF CALIFORNIA (af)

The largest petunia blooms, 5"-6" across, heavily ruffled, with heavy, robust growth, 14"-16". Florist and garden use.

.....	.....	.....	....5696	PARAMOUNT GIANTS, free-flowering mixture of light and dark shades, composed of a range of red and orchid shades with white markings, all veined and ruffled and with some light, some dark throats. 4"-5" flowers. Particularly suited to outdoors as will be showy even under adverse conditions. ....	2.80	2.35	8.75	35.00
.....	.....	.....	....5710	BODGER'S SPECIAL MIXTURE, a well balanced mixture of light and dark colors, heavily ruffled and veined. Colors include light salmon, deep salmon, rose shades, orchid shades, crimson, and many bicolors. We built our reputation on this strain by maintaining separate color lines and formula blending. ....	3.20	2.75	10.00	40.00
.....	.....	.....	....5712	CHOICE MIXED, offered to fill the demand for a less expensive Giants of California mixture. Satisfactory for all but the most critical trade, this mixture sells for one fourth less than the elite strain listed above. ....	2.50	2.10	8.00	30.00
.....	.....	.....	....5718	BODGER'S SUPREME FLORIST STRAIN 4 1/2" blooms in delicate shades of rose, pink and salmon, with light throats. ....	2.80	2.35	8.75	35.00

### PETUNIA DWARF GIANTS OF CALIFORNIA (Bodger) (a)

Huge 5"-6" Giants of California flowers on dwarf 8" sturdy plants especially bred for pot culture.

.....	.....	.....	....5700	RAMONA STRAIN DARK SHADES including salmon and wine-red shades with dark veined throats and occasional white bicolor markings. ....	4.40	4.00	15.00	60.00
.....	.....	.....	....5702	RAMONA STRAIN LIGHT SHADES, predominately orchid and rosy orchid shades with prominently veined dark throats and some bicolors. ....	4.40	4.00	15.00	60.00
.....	.....	.....	....5704	RAMONA STRAIN DARK AND LIGHT SHADES	4.40	4.00	15.00	60.00
.....	.....	.....	....5708	RAMONA STRAIN SUPERDWARFS. Giant flowers on plants having the ultimate in dwarf habit. Bred strictly for pots and combinations. Shades of rose and red, about 50% bicolored with white. ....	4.60	4.25	16.25	65.00

**Sizes priced in red are packed only in V-seal.**  
**Sizes priced in black are not packed in V-seal.**

## LARGE FRINGED TYPES

### PETUNIA GRANDIFLORA SINGLE FRINGED (a)

Strong, free flowering 12"-16" plants, some varieties spreading, others compact. Many large ruffled and fringed flowers. For both florist and general garden use.

Specify the number of packages you want of each size.				No charge for containers			
Cartons of four 1/4 oz. pkgs.	1/16 ozs.	1/4 ozs.	Ounces	Carton of four 1/4 oz. pkgs.	Per 1/16 oz.	Per 1/4 oz.	Per oz.
.....	.....	.....	....5624				
			FLUFFY RUFFLES, mixture of bicolor shades of red and white, plus orchid and rose-pink solids. Flowers 2"-3" and very, very heavily ruffled. ....	2.80	2.35	8.75	35.00
.....	.....	.....	....5618				
			FRINGED SNOWSTORM (f), excellent white, compact 12" plants; 4" blooms. ....	2.80	2.35	8.75	35.00
.....	.....	.....	....5598				
			THEODOSIA, fringed rose, gold throat. ...	2.80	2.35	8.75	35.00
<b>PETUNIA F₂ GRANDIFLORA</b>							
.....	.....	.....	....5562				
			SCARLET CARNIVAL, the brilliant red Carni- val component now available as an indi- vidual variety. Flowers are scarlet with yellow throat, and appear in a phenomina- lly high percentage of big, waved and fringed grandiflora blooms. Compare this new variety with Dazzler and see what a distinct advantage exists. ....	5.60	5.25	20.00	80.00
.....	.....	.....	....9076				
			CARNIVAL MIXTURE ® (Bodger), wide color range in vigorous grandiflora type, most of the blooms being large and fringed, waved or ruffled. ....	2.20	1.75	6.50	25.00
.....	.....	.....	....9190				
			CARNIVAL DELUXE MIXED, we strongly rec- ommend this advanced breeding achieve- ment as the highest quality mixture avail- able at less than F ₁ hybrid prices. The per- centage of full sized grandiflora blooms is extremely high, so high that it takes a careful and experienced eye to find any small flowers in a planting. The color range is complete, with white, pink, rose, blue, orchid, lots of red, salmon, and variegated rose, and white, red and white, and blue and white. Be sure to get some of this seed in your market grower customers' hands.	5.60	5.25	20.00	80.00

## LARGE PLAIN EDGED TYPES

### PETUNIA GRANDIFLORA SINGLE PLAIN EDGED (af)

Free flowering 12"-16" plants, some varieties spreading, others compact. Many plain-edged flowers of heavy substance and velvety texture. Prime favorite of florists.

.....	.....	.....	....5656	BURGUNDY, ALL-AMERICA SELECTION '37 red, white throat. ....	2.50	2.10	8.00	30.00
.....	.....	.....	....5658	DWARF ELK'S PRIDE, deep velvety purple, compact. ....	2.80	2.35	8.75	35.00
.....	.....	.....	....5732	FLAMING VELVET (Bodger), 4" blooms in velvet blood red, compact 16"-18" plants.	2.50	2.10	8.00	30.00
.....	.....	.....	....5642	PINK GLORY IMPROVED, 3" bright, rose, white throat; upright, compact 12" plants.	4.60	4.25	16.25	65.00
.....	.....	.....	....5640	POPCORN, pure 4" white flowers with the size, form and yellow shaded throat of Snowstorm on a dwarf, more compact 10" pot plant. ....	3.20	2.75	10.00	40.00
.....	.....	.....	....5734	ROYALTY, rich purple with white star. ...	3.20	2.75	10.00	40.00

**POLYANTHUS PRIMULA**

**Sizes priced in red are packed only in V-seal.**  
**Sizes priced in black are not packed in V-seal.**

### PRIMULA POLYANTHA (p)

We offer with pride this Pacific Strain series of polyanthus primulas. The seed is grown exclusively in our greenhouses under the same exacting supervision as our F₁ petunias. As a result, the plant population is not only rigidly controlled for purity of color and size of bloom, but the seed itself is of particularly high germinating ability. Prompt processing and sealing in V-seal pouches maintains this high germination so that the grower may sow from V-seal pouches at his optimum planting time, secure in the knowledge that the seed still has the vigor and strength attained through ideal greenhouse culture.

**SCARLET RUNNER BEANS (See Beans)**

This sunny little girl is ready and willing to work for you in your catalog, newspaper, or other advertising. Your printer is welcome to pick up any of the Thumbelina drawings directly from these catalog pages, or we will supply proof sheets of the whole series of poses on your request. Thumbelina Zinnia is well worth extra promotion; your customers will be grateful you called it to their attention.

**Sizes priced in red are packed only in V-seal.**  
**Sizes priced in black are not packed in V-seal.**

### SCHIZANTHUS GRANDIFLORA HYBRIDS (Butterfly Flower) (a)

Another common name for this delicate-looking little flower is Poor Man's Orchid, and a glance at the flowers is enough to confirm the fact that they do indeed have the appearance of tiny Cattleya orchids.

Specify the number of packages you want of each size.			No charge for containers

### VERBENA MULTIFLORA (a)

To simplify the nomenclature of verbenas and eliminate close duplications we have eliminated the old Mammoth class and reduced the listings in the Hybrida Grandiflora class. These new Multifloras each replace at least two of the old varieties, besides being improved strains in their own right.

Specify the number of packages you want of each size.				No charge for containers

**Sizes priced in black are not packed in V-seal.**

## SWEET PEAS

The numbers in parenthesis following Sweet Pea descriptions refer to horticultural color chart readings.

### SWEET PEA ZVOLANEK MULTIFLORA (af)

A garden sweet pea more vigorous than Early Spencer. Under ideal conditions Multifloras produce longer and stronger stems, larger florets and more of them. Under any conditions they produce an average of two more florets per stem than the Early Spencers. We recommend this strain.

Minimum purchase unit  
Zvolanek Multiflora peas  
1/2 lb.

		No charge for containers	
		Per lb.	5 lbs. or more Per lb.
....8762	BLUE WONDER, clear medium blue .....	2.50	2.25

....8742	GEO. J. BALL, deep coral rose (21/1) .....	2.50	2.25
....8748	LAVENDER, clear lavender (633/2 and 32/2) ....	2.50	2.25
....8754	ORANGE SCARLET, on white ground (20) .....	2.50	2.25
....8772	VALENTINE, rich salmon cerise on cream white (20/1)	2.50	2.25
....8750	WHIRLWIND, light cream pink (623/2) .....	2.50	2.25
....8776	WHITE, white seeded .....	2.50	2.25
....8778	PRIZE WINNER MIXED .....	2.25	2.00
....8780	CHOICE MIXED .....	2.00	1.80

### SWEET PEA MULTIFLORA GIGANTEA (af)

A new class of sweet peas which has some distinct advantages over present early flowering strains. The class is of the multiflora type, which means that it carries 4 or 5 florets per stem instead of 2 or 3 as in the old Early Spencers, but it differs from the Zvolanek Multifloras in its ability to produce much larger individual florets. As a class, the new Giganteas are earlier in maturity than the Zvolanek Multifloras.

		No charge for containers		
		Per 1/4 lb.	Per lb.	5 lbs. or more Per lb.
....8896	CARMEN, excellent flower production, carmine blooms (724) .....	1.25	4.50	4.00

## **Thumbelina says, "Be seeing you!"**

You'll be seeing her, too, in magazines, newspapers, TV, and in countless gardens throughout the world. This little zinnia cannot fail to be the most widely planted and admired novelty of the decade. Gardeners without exception will want seed just as soon as they can get it. Place your order now to receive delivery immediately after harvest and be ready with seed when the demand begins.

# V[®] seal saves seeds

Filling V-seal packages with small amounts of expensive seed like F₁ hybrid petunias requires highly accurate scales and painstaking care.

Moisture control in V-seal processing involves specialized equipment for moisture testing both seed and atmosphere.

V-seal pouches are flexible in size, admirably adapted to small units, and very efficient moisture vapor barriers.

The V-seal units offered in this catalog are pre-packaged as soon as processing is completed, facilitating speedy order filling.

# **DOUBLE EAGLE**

**F₁ HYBRID AMERICAN MARIGOLD**

Printed in USA

Double Eagle is the light orange companion to Doubloon and Sovereign, and is described in the color section at the front of the catalog. Display cards like this one are also available for Thumbelina, Pink Buttons and Red Buttons zinnias and Sprite Snapdragons. Seed prices on page 1 black and white section.

# SOVEREIGN

**F₁ HYBRID AMERICAN MARIGOLD**

Printed in USA

-----

This is the gold flowered hybrid in the new F₁ Gold Coin series. Blooms are 4 inches or more across, and all double. Laminated cards like this one, trimmed at the dotted line, are priced on page 6, and seed prices are on the first page following the color section.

Gold Medals are rare.

Thumbelina Zinnia has won a Gold Medal for 1963.

In the last 24 years only two flowers* have attained this highest honor in the All-America trials.

The appeal of this superlative, ultra-dwarf zinnia makes it an imperative addition to every garden, and to every seedsman's stock-in-trade.

Place your order now!

Bodger Seeds, Ltd.  
El Monte, California

* Both are Bodger's. The other Gold Medal went to Fire Chief, the first red petunia.

# V-seal saves seeds

## **Be ready for anything!**

With V-seal you are equally prepared for extra business or slow business, because for the first time you can safely stock perishable flower seeds.

If you have V-seal on the shelf you are ready when your customer is ready, and both of you can be confident that the seed you sell is genuinely harvest-fresh.

V-seal means extra sales, extra satisfied customers, and best of all it means that you sell instead of throw away your carry-over seed.
